Hello Andrzej

We have problems with your children in Kleve.

Last week there was very much rubbish outside that was cleaned the Friday before I came.

But more complaints:

- They do not put rubbish in the right container, and we can get problems with Stadt Kleve about that
- Inside the house it must be wet in the atmosphere, you can see from outside that the walls become black, that never happened all these years that you were living here.
- There were problems before that police was there and that was also related to Rosa.
- Inside the apartment it also looks not as clean as it was when you lived there.

That's why we would like to cancel the contract with your kids, because we see a lot of damage that we have to repair.

Greetings,

Herbrand and Oksana Hofker-Voznyuk
